Professional Experience

STERLING BANK - (SEABAAS CORE BANKING)

Jan. 2024 - Present

Senior Front End Software Engineer, Lagos.

- Key contributor to the **User and Access Module (URM)**, responsible for managing user authentication, roles, and permissions across the bank's **core banking** platform.
- Implemented a **Maker/Checker** based system dashboard which enforces all user activity to be strictly permission based.
- Developed the **Transaction-Limit** feature, allowing authorized users to define transaction thresholds for bank teller officers, ensuring regulatory compliance and risk management.
- The platform is used by all **Sterling Bank** staff, serving **thousands of users across Nigeria**, and facilitating secure banking operations at scale.

PETRA SOLUTIONS

Jun. 2023 - Jan. 2024

Senior Front End Software Engineer.

- Developed an employee admin page to monitor over **30,000 employees**, tracking their health status within the company and identifying potential departures.
- Utilized **React and Firebase technologies** to develop and maintain frontend and database functionalities for the web application.
- Implemented complex features such as:
 - A **map feature** to track the number of employees in **each state in the USA**.
 - A **graph and line chart** feature to visualize and track the health status of staff.

INTERSWITCH GROUP

May. 2022 – April. 2023

Front End Software Engineer.

- Collaborated with the frontend team on homes.quickteller.com, a **platform for listing properties, rentals, and shortlets**, to build a mobile-responsive web application that serves thousands of users
- Integrated RESTful APIs for seamless data retrieval and state management using global state management libraries.
- Worked in an **Agile environment (SCRUM, KANBAN)**, actively participating in sprint planning, daily stand-ups, and retrospectives to drive efficient development cycles.

CODEZOOMERS

Aug. 2019 - Jan. 2020

Front End Software Engineer, Benin City.

- Developed strong problem-solving abilities, troubleshooting, and debugging issues to ensure smooth website functionality.
- Developed proficiency in version control systems, such as Git, for efficient collaboration and code management.
- Optimized web performance by implementing lazy loading, code splitting, and caching strategies to enhance user experience.

Projects

Quickteller Homes – [Quickteller Homes Live Link](#)

Worked with a team of software engineers to build Interswitch Quickteller Homes web application.

SeaBaas (Sterling Core Banking Application)

Collaborated with a multidisciplinary team to develop **SeaBaaS**, an advanced core banking system. The platform leverages modern technologies, including microservices, **microfrontend architecture** to **deliver seamless banking experiences and scalable financial solutions**.

Mizan (AltBank Core Banking Application)

Collaborated with a multidisciplinary team to develop **Mizan**, a secured core banking system designed for Islamic banking. The platform utilizes Shariah-compliant financial services while ensuring scalability, security, and efficiency.

Shopiverse - [Shopiverse Live Link](#)

This web app. features like two-factor authentication (2FA), password management, authentication flow, payment integration, responsive design and many more.

Design

Figma | Adobe Photoshop | Adobe Illustrator
